

local CHAPTER HANDSHAKE A AGREEMENT

1. Good for Nothing (GFN) is an experimental collaborative community with an emphasis on experimental.
 2. We believe the GFN community can become an impactful force for positive change and general awesomeness in the world.
 3. To do that, we're on a journey to hatch new GFN chapters in cities around the world, run by small teams of smart folk who share similar values, attitudes and beliefs.
 4. We invite new chapters to come on this journey, sharing learnings and output openly and regularly with us and the wider community.
 5. All chapters operate under a very analogue 'handshake agreement' and 'trust basis'. The more we all do, the more we share and collectively learn, the more we all grow.
 6. In return for becoming a chapter, you have the exclusive rights to represent Good for Nothing in your city, put on gigs, access to the GFN platform and wider community, tools and mentors to help develop your network.
 7. We ask each chapter to commit to running 2 gigs and a minimum 4 socials* a year, and to put on the first gig within 6 months of 'shaking hands'. Failure to put on a gig means losing the local rights to Good for Nothing.
 8. There is no immediate commercial incentive for taking on a chapter - other than you'll learn shed loads, meet great people and laugh a lot.
 9. To make GFN work means avoiding the crap that gets in the way - no idiots, no egos, no taking the piss. Energy, enthusiasm, integrity, honesty, good vibes all the way.
 10. GFN is hard work to do properly and well, but the impacts are immense. We ask everyone running chapters to obsess about creating experiences that change things.
 11. The devil is in the detail. We encourage local flavours but ask you to respect design guides and principles and reserve the right to sign off on communication materials.
- * A social = informal meeting in a pub or café for a few drinks and a chat and a catch up. Sometimes we've invited a speaker along, or watched a film. Which people seem to like. There's nothing much to organise. It's fun.
